Descripción

En este libro se incluye una breve sinopsis de nuestros conocimientos actuales y de los procedimientos utilizados y esperamos que resulte de interés para todos aquellos cuya misión sea tratar a pacientes bipolares y defender su causa. Entre ellos, podríamos citar a los médicos de atención primaria que están interesados en este trastorno, a los psiquiatras y terapeutas y a las enfermeras, profesionales todos ellos que tanto pueden ayudar a cada paciente que está a su cuidado. Esperamos que los pacientes y sus familias deseen utilizar este libro, ya que son ellos quienes proporcionan el estímulo definitivo para mejorar la asistencia al motivar directamente a sus médicos para que se mantengan actualizados y alerta ante los nuevos avances. Esperamos que ellos también participen de manera entusiasta en la investigación de las causas y la naturaleza del trastorno bipolar y en los estudios aleatorizados que pueden mejorar su tratamiento.
